

# BOWLING 4 AIDEN

CHACKO'S FAMILY BOWLING CENTER

WILKES-BARRE, PA

**AUGUST 16, 2008 2PM-5PM**

## *BABY AIDEN'S STORY*

*Baby Aiden was born with a rare liver condition called Biliary Atresia, which is when the gallbladder and bile ducts are not formed; therefore the liver has no way of draining the bile from itself. This causes Jaundice and in time will lead to liver failure and eventually death. Doctors have attempted to correct this condition with no success. In liver failure now, Baby Aiden's only hope for survival is a liver transplant. This fundraiser is being held to help offset the cost of lodging for his parents during the surgery, to help take care of Aiden after the surgery, to help pay for Baby Aiden's medical expenses not covered by his parents' insurance, and to help cover the cost of the special formula that Baby Aiden needs in order to get the nutrients he needs to gain weight. We thank you in advance for helping to give Baby Aiden a second chance at a great long life.*

DONATIONS CAN BE MADE DIRECTLY TO:

UFCW FEDERAL CREDIT UNION

ATTN: AIDEN NEWMAN MEDICAL FUND

570 MARKET STREET

KINGSTON, PA 18704
